Tasks that are carried out during the Working Group sessions are a combination of seasonal, routine and project based. Examples include:

- Fruit tree weeding and general maintenance
  - Path and grass management
  - Hedgerow maintenance
  - Wild flower meadow management
  - Wildlife area management
  - Pond maintenance
  - Scything wild flower meadow areas
- Members of our fully trained Tree Team carry out seasonal and more technical tree pruning and maintenance.

If you wish to join us at one of the Working Group Sessions, you would be most welcome. Simply introduce yourself on arrival and one of the team will quickly get you involved.
